M

is a multi-disciplined professional consulting and design firm, proud of our long history of client service and our consistent ability to meet tough architectural, engineering and environmental challenges head-on. Since 1933, H2M has helped design and build many of our communities: from treatment facilities to firehouses, from land surveying to road reconstruction, from site assessment to remediation. Since our early roots, our focus has remained steadfast: to provide quality service with sound judgment and to serve as an honest professional resource to our clients. We offer a practical approach with creative results.
