H2M is a multi-disciplinary professional consulting and design firm, proud of our long history of client service and our consistent ability to meet tough architectural, engineering, and environmental challenges head-on. Since 1933, H2M has helped design and build many of our local communities; from water treatment facilities to firehouses; schools to road reconstruction; and environmental site assessment to groundwater remediation. Since our early roots, our focus has remained steadfast: to provide quality service with sound judgment and to serve our clients as an honest and professional resource.

**We offer a practical approach with creative results.**

well rehabilitation
