Christopher M. Kobos, PMP

H2M | Director of GIS Services

Tel: 866.970.6535 ext.1731

Email: ckobos@h2m.com

Christopher M. Kobos, PMP, graduated from Colgate University with a Bachelor's Degree in Environmental Geography and is a certified Project Management Professional and ArcGIS Authorized Trainer.

With more than two decades of experience, Mr. Kobos is H2M's Director of GIS Services. In this position, he has technical direction over a group of GIS specialists and technicians to develop and maintain technical competencies with industry standard GIS software, cloud and on-premises platforms, and the processes required for successful GIS solution delivery. Additionally, he is responsible for the business development and overall growth of the firm's GIS service offering. Prior to joining H2M, Mr. Kobos consulted local GIS clients as a Vice President of GIS Services, coordinating the interaction of municipal GIS activities and managing numerous projects for Villages, Towns, Counties, and the State.

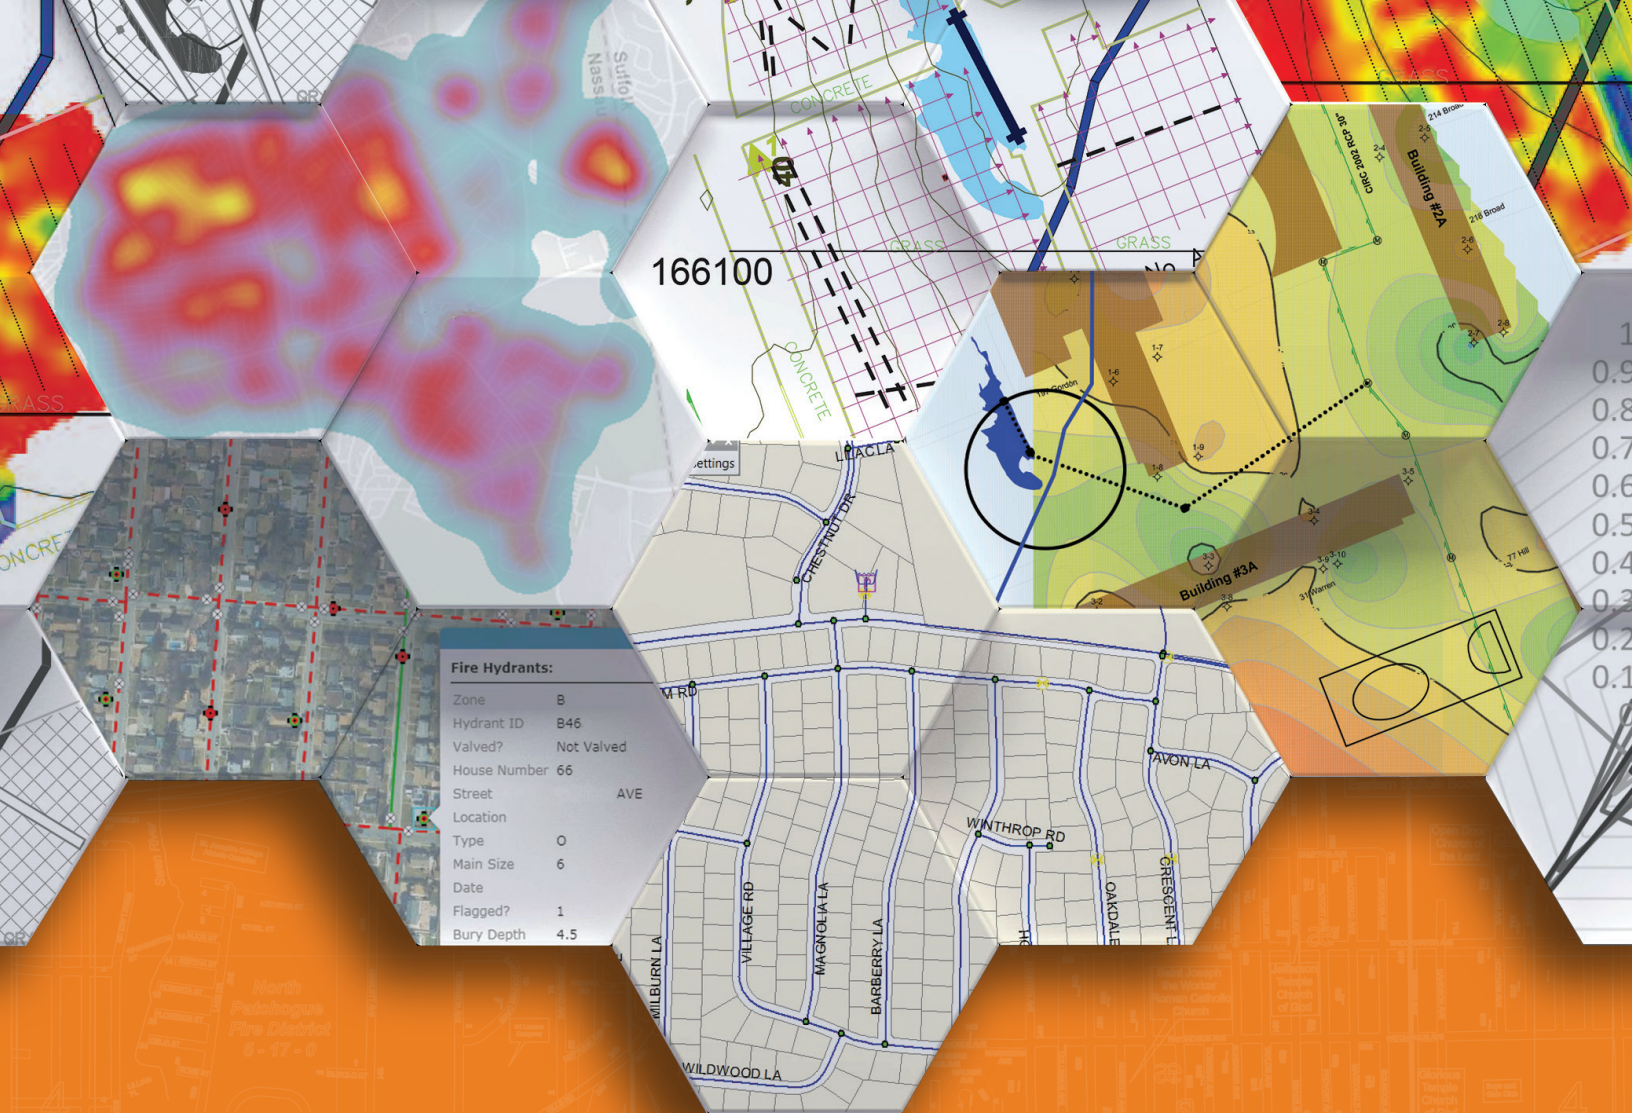

With the addition of Mr. Kobos, H2M's GIS Division will expand upon: Online and Mobile Mapping; Asset/Infrastructure Inventory; Maintenance and Management; GPS/Field Data Collection; Spatial Trend Analyses; Third-Party Software/Application/Data Integration.

To stay relevant in the industry, Mr. Kobos retains active membership in the Long Island GIS Association, the New York State GIS Association, and the Project Management Institute.

H2M is an award winning, multi-disciplined professional consulting firm that excels in managing complex projects while balancing the needs of its clients, costs, community, and environment. **Founded in 1933, H2M's philosophy was simple – to provide the highest level of service on every project. Today, 90 years later, that core value still guides us.** H2M offers architecture, engineering, MEP services, water supply engineering, wastewater engineering, solid waste management, environmental services, planning, survey, GIS and construction phase services. With a staff of over 500, and our endless inhouse capabilities, we are dedicated and able to serve our clients in the most efficient way possible.

Our GIS Team provides a range of services:

- Digitization of Records
- Special District Mapping
- Data Conversion
- Hydraulic Modeling
- Geodatabase Design
- Geospatial Analysis
- Raster Analysis
- Municipal Asset Management
- Mobile Application Development
- Online Mapping
- GPS Data Collection
- Community Planning
- Environmental Data Analysis
- Wetland Delineation
- Augmented Reality Visualization
- BIM Integration
- User Training

H2M's Approach to Successful GIS Solutions

H2M's extensive GIS service offering was built upon our decades of municipal and private A/E experience. Our team of GIS professionals maintain technical fluency in ever-changing GIS industry software and practices. We take great pride in our ability to lead our clients to the most appropriate GIS solution for their need, regardless of size or complexity. With specialties spanning all aspects of geospatial data development and accessibility, our GIS team is equipped for any GIS challenge. Guiding our clients through each step of their GIS project, from conception through needs analysis, strategy, design, and delivery, we provide appropriate, functional, and practical GIS solutions with the latest technology to meet our clients' specific needs.

H2M architects + engineers has been awarded Esri's ArcGIS Online Specialty Designation! In addition to being an Esri business partner, H2M architects + engineers was awarded the ArcGIS Online Specialty Designation from Esri. The ArcGIS Online Specialty designates partners in the Esri Partner network that have developed a proven set of value-added services and solutions that help users implement and optimize ArcGIS Online in their organizations.
