vision, expertise, and execution...

At H2M, we believe Interior Design is a multi-faceted profession. Our designers strive for creative and technical solutions that are applied within a structure to enhance the function and quality of life within the interior environment. H2M provides a collaboration of multidisciplinary professionals to consult on every aspect of your project from Interior Designers, Architects, Engineers, and more. Each project has its own “language” and set of criteria that make it original and exciting. The responsibility of the Interior Designer is to listen to the needs of our Clients and offer suggestions and alternatives that will be long lasting with future growth in mind and accomplishing each Client’s long term goals.

Signage, artwork, window treatments, and more

H2M is a multi-disciplinary professional consulting and design firm, proud of our long history of client service and our consistent ability to meet tough architectural, engineering, and environmental challenges head-on. Since 1933, H2M has helped design and build many of our local communities; from water treatment facilities to firehouses; schools to road reconstruction; and environmental site assessment to groundwater remediation. Since our early roots, our focus has remained steadfast: to provide quality service with sound judgment and to serve our clients as an honest and professional resource.

We offer a practical approach with creative results.
