

K-12 design

# we set the stage for learning...

H2M believes that where we learn is nearly as important as what we learn; our environment has a tremendous impact on our sense of curiosity, comfort, and motivation. We design bright spaces that foster collaboration, encourage discovery, and inspire learners of all ages. From elementary school classrooms to higher education, we set the stage for learning. With decades of experience working with school districts, universities, and libraries, we've developed the expertise necessary to address the concerns and issues facing administrators and school boards in relation to their buildings, properties, and growing communities.

- Rendering

H2M is a multi-disciplinary professional consulting and design firm, proud of our long history of client service and our consistent ability to meet tough architectural, engineering, and environmental challenges head-on. Since 1933, H2M has helped design and build many of our local communities; from water treatment facilities to firehouses; schools to road reconstruction; and environmental site assessment to groundwater remediation. Since our early roots, our focus has remained steadfast: to provide quality service with sound judgment and to serve our clients as an honest and professional resource.

**We offer a practical approach with creative results.**
