

H2M architects + engineers STEM Scholarship Scholarship Application

The H2M architects + engineers STEM Scholarship is awarded on the basis of merit and character to a graduating senior who is planning to attend college and enroll in a science, technology, engineering, architecture, or math (STEM) degree program. H2M is a 400+ person architecture and engineering firm headquartered in Melville, with office locations throughout the NY/NJ metro area, Lower Hudson Valley and Albany.

eligibility + selection criteria

- Applicant must be a high school senior planning to enroll in a science, technology, engineering, architecture, or math (STEM) course of study in the fall and considering a career in our industry.
- Applicant must be accepted to an accredited college or university in a STEM degree program.
- Applicant must not be an employee or family member of a current H2M architects + engineers employee.
- Academic achievement is a significant factor in the selection process; however, there are no minimum requirements in order to apply.

application process + deadline

- Completed Application Form
- Personal essay (300-400 words) describing your career goals in science, technology, engineering, architecture, or math.
- Current resume with any extracurricular achievements and community organizations.
- Official high school transcript
- Two (2) recommendations from teachers and/or guidance counselors
- Additional information that shows your interest in problems and issues related to these professions through job experience, volunteer work, high school course work, special projects, etc. *(if applicable)*

scholarship amount

- Six \$1,000 scholarships, to be awarded during a ceremony at H2M's Melville headquarters at the conclusion of the recipient's senior year.

about H2M architects + engineers

H2M is a multi-disciplined professional consulting and design firm, proud of our long history of client service and our consistent ability to meet tough architectural, engineering, and environmental challenges head-on. Since 1933, H2M has helped design and build many of our communities: from water treatment facilities to school facilities, from land surveying to road reconstruction, from site assessment to remediation.
