

claim valuation appraisals

claim valuation appraisals

Insurance industry professionals count on H2M's engineers and consultants to service both the residential and commercial claim market. H2M works with claim adjusters, agents, handlers and attorneys to solve problems and expedite settlements in the claim valuation process. H2M can provide the following services:

- Serving as appraiser or umpire when the appraisal provision of the insurance policy is invoked.
- Coordinating our work with your counsel to ensure your specific appraisal needs are met- we are familiar with appraisal law and handling.
- Working with the carrier regarding estimates prepared in XactiMate or other platforms.
- Handling Structure, Unscheduled Personal Property, and Additional Living Expense appraisals, as well as commercial estimate assessments and appraisals.

commercial + industrial fixturing + equipment valuations

- Conduct onsite or virtual assessments of fixturing and equipment claims.
- Will work with your adjuster(s) to confirm inventories for use in claim settlements.

H2M's consulting services are focused to provide both cost and liability control, while focusing on getting the claim closed in a timely manner.
